

→ Slider lift for light trucks, trailers and semi-trailers

## DH-SO(C).10 • 750 - 1000 kg

The slider lifts DH-SO... are equipped with a **double folded platform**, that rests on top of the lift arms when the lift is stowed away in its travel position. This compact construction is perfectly fit for installation on **vehicles with very short overhang**.

Safely stowed under the vehicle chassis, it offers **free access to the cargo space** at all times, and is well suited for the light-duty **urban distribution**. The 2 platform parts are made of light-weight aluminium to maximize the pay-load of the vehicle.

The DH-SO.10 offers 750-1000 kg lift capacity, and is suitable for light-duty trucks from 3.5 – 12T GVW, light trailers and semi-trailers. Special mounting kits are available for installation on van chassis.

There are 2 executions: the DH-SO.10 with fixed stabilizers, and the DH-SOC.10 with tilt cylinders and **adjustable platform orientation**.

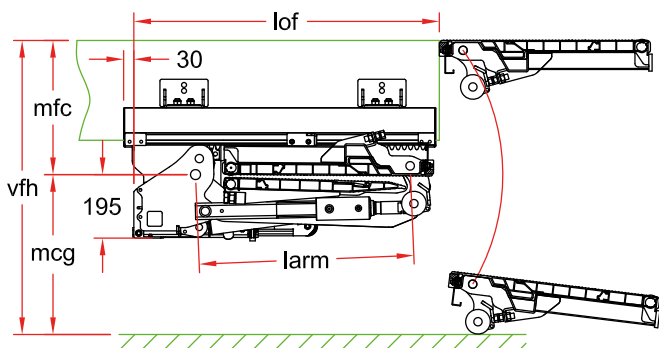

### Lift capacity

CAP	CG	LM
750 kg	600 mm	4.5 kNm
1000 kg	600 mm	6 kNm

### Weights [see pg. 19]

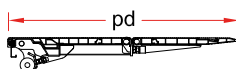

ALU / ALU platform	
1200x2200 mm	265 kg
1400x2200 mm	272 kg
1600x2200 mm	280 kg

# Lightest slider lift with double folded platform

## Fitting dimensions

larm	650	750	850
vfh max.	1035	1180	1315
mfc max.	490	570	645
mch max.	545	610	670
lof	910	1010	1110
pd max.	1200	1400	1600

## Technical specifications

Lift frame	Compact lift frame 120 x 80 mm
Cylinders	<ul style="list-style-type: none"> <li>• 2 lift cylinders + 2 fixed stabilisers</li> <li>• 2 tilt cylinders available as option [OAH036]</li> </ul>
Retraction IN / OUT	Hydromotor + gear wheel system
Type of ride [see pg. 8-9]	Wedged platform. Level ride + automatic tilt at ground level
Platform material	Alu / Alu
Standard platform depths	1200 - 1400 - 1600 mm
Standard platform widths	2200 mm Other widths on request [OAP603]
Lift arm lengths	650 - 750 - 850 mm
Lift arm widths	1300 - 1420 - 1500 mm
Std. control unit [see pg. 10]	OAE030.BT
Standard finish of the lift frame	Hot-dip zinc plated finish [OAT104]
